I'm a software developer with 6 years experience, 4 years in flutter. I'm proficient with working with several state management tools and libraries in flutter examples include - Provider, getx, riverpod, google maps api, google cloud message, cloud firestore, socket.io and many more. I pride my self in writing clean properly architected code using MVVM, Domain Driven Design(DDD), Test Driven Design(TDD) design patterns/ Architecture. I'm very good at processing information which aids me when I read documentation on a new subject and allows me to learn and improve very quickly. I'm very driven and passionate about what I do and this extends to my professionalism in the work place as I put in a lot of effort and time into getting work done.

Skills

- Flutter
- Google Cloud Platform
- Firebase Cloud Messaging
- OneSignal
- RiverPod
- Provider
- GetX
- Google Maps
- Socket.io

Work History

2022-02 - Current
